

## Community Involvement

### Activate - An All-Employee Initiative to Give Back in 2023

Greenspoon Marder commits that 100 percent of firm employees will participate in a community service activity this year. The firm will offer multiple opportunities for employees to activate their goals of addressing an unmet need in their area. Greenspoon Marder curates volunteer opportunities and group activities on a regular basis to ensure employee participation. As in years past, staff members receive paid Volunteer Time Off (VTO) to provide flexibility and promote participation in community service events. ([Read More...](#))

### Pro Bono

At Greenspoon Marder, we are dedicated to the betterment of our communities through pro bono services and volunteerism. Our attorneys and staff are encouraged to serve their communities and fulfill their professional and ethical responsibilities in providing pro bono legal services to individuals and organizations in need.

Project New Leaf, the firm's leading pro bono project, is a call-to-action and mobilization of our talented attorneys across the U.S. to provide pro bono expungement and record sealing services to individuals in underserved communities. The firm also partners with local organizations to provide much-needed community services such as information about affordable housing and free wireless service through government programs like Lifeline and the Affordable Connectivity Program (ACP).

### Charitable Giving and Activities

Greenspoon Marder is proud to support several professional and community organizations throughout the U.S. Participating in philanthropy and charitable activities have been deeply ingrained in the firm culture since our inception in 1981. As our firm's footprint continues to grow throughout the United States, we remain passionate about giving back to the charities, communities, and business organizations to which our clients, attorneys, and staff are committed.
